PROFESSIONAL SUMMARY

Business professional with experience building and scaling products, growth systems, and operations in technology companies. I have worked across product strategy, artificial intelligence, strategic partnerships, and go-to-market, leading cross-functional initiatives from discovery and validation through implementation and scale. I combine strategic thinking with hands-on execution to turn complex opportunities into scalable solutions and measurable business outcomes.

PROFESSIONAL EXPERIENCE

2026 – Present | [GeoVictoria](#), Chile

Product Manager:

I lead the strategy and evolution of GeoVictoria's Workforce Management solutions, connecting customer needs, business priorities, and technical feasibility to build scalable SaaS products.

- Led product strategy and roadmaps for Smart Scheduler, Shift Optimizer, and Shift Change Workflow.
- Managed roadmaps and backlogs, prioritizing initiatives based on business impact, customer needs, and technical feasibility.
- Led product discovery and customer validation, translating operational challenges into product opportunities.
- Defined and developed AI-powered MVPs, coordinating pilots and product evolution with cross-functional teams.
- Defined and monitored product and operational KPIs, driving continuous improvement through analytics, experimentation, and customer feedback.

2025 – Present | [lowsignal](#), Chile

Co-Founder & Chief Operating Officer (COO):

I lead lowsignal's operations and strategy, building Growth Systems that combine strategy, technology, content, artificial intelligence, and automation to drive business growth.

- Designed and scaled the company's operating and commercial model from inception, structuring processes, ownership, and systems to support growth.
- Developed go-to-market, acquisition, and growth strategies, connecting positioning, campaigns, digital channels, and commercial opportunities.
- Led projects for 15+ organizations across multiple industries, coordinating growth, marketing, digital product, automation, and customer experience initiatives.
- Implemented processes, metrics, CRM systems, and automations to optimize operations, improve commercial tracking, and strengthen client relationships.
- Lead cross-functional teams across growth, content, design, technology, and business development, ensuring strong execution and project delivery.

2025 – 2026 | [TetherEd](#), United States

Head of Partnerships:

Led TetherEd's partnership and regional expansion strategy, connecting educational institutions, governments, and ecosystem organizations with education technology products and solutions.

- Developed and managed 14+ strategic partnerships with educational institutions, governments, and ecosystem organizations across multiple markets.
- Led expansion and go-to-market initiatives across Chile, Colombia, Peru, the Dominican Republic, the United States, Denmark, and Spain.
- Managed relationships with key EdTech stakeholders and represented the company in high-impact strategic projects.
- Coordinated cross-functional teams and stakeholders to execute digital transformation and technology adoption initiatives in education.
- Contributed to projects reaching 100+ public schools, alongside initiatives generating 1M+ applications and 5M+ profile views.

2024 - 2025 | [TetherEd, United States](#)

Growth Marketing Intern:

Collaborated with Growth and Product teams to improve user acquisition, activation, and retention across Latin America through automation, experimentation, and data analysis.

- Designed automated onboarding flows achieving 65%+ open rates and tripling click-through rates.
- Built dashboards to monitor commercial funnel performance and user behavior.
- Ran A/B tests to optimize campaigns, messaging, and acquisition processes.
- Collaborated with Product to improve activation, onboarding, and overall user experience.
- Analyzed growth data to identify conversion and retention opportunities.

2024 - 2025 | [Universidad Técnica Federico Santa María, Chile](#)

Assistant Coordinator:

Coordinated academic operations for the Programming and Data Processing for Management course, supporting the application of data analysis tools to business decision-making.

- Coordinated operations across 12+ course sections and 400+ students, working with faculty members and teaching assistants.
- Standardized academic processes and developed Excel-based tracking tools.
- Built monitoring systems for grades, attendance, progress, and activity completion.
- Integrated real-world cases and data analysis into course activities.
- Supported coordination between faculty members and teaching assistants to ensure consistent academic execution.

2024 - 2025 | [Universidad Técnica Federico Santa María, Chile](#)

Admissions Promotion Coordinator:

Led outreach and admissions initiatives for the Business School, coordinating campaigns, events, and prospect management to strengthen institutional positioning.

- Designed and executed on-site and digital admissions campaigns.
- Managed prospect tracking through CRM and commercial management tools.
- Coordinated events, talks, and engagement activities for prospective students.
- Engaged with 1,000+ prospective students through admissions and orientation initiatives.
- Coordinated initiatives across academic, commercial, and communications teams to improve the admissions experience.
