PROFESSIONAL SUMMARY

Business professional with experience building and scaling products, operations, and customer relationships in B2B technology companies. I have led initiatives across onboarding, adoption, growth, market expansion, and product development, connecting customer needs with business opportunities and scalable solutions. I combine strategy, leadership, and execution to design processes, coordinate cross-functional teams, and deliver measurable results across the customer lifecycle.

PROFESSIONAL EXPERIENCE

2026 – Present | [GeoVictoria](#), Chile

Product Manager:

Led the strategy and evolution of three SaaS Workforce Management solutions, connecting customer needs, business priorities, and technical feasibility with a focus on adoption, MRR, and revenue growth.

- Owned strategy, roadmap, prioritization, and OKRs for Smart Scheduler, Shift Optimizer, and Shift Change Workflow.
- Led 100+ pilots and validation processes with B2B customers, translating operational challenges into product requirements, iterations, and adoption opportunities.
- Built Shift Change Workflow from 0→1, from discovery and problem definition through validation, pilot execution, and launch readiness.
- Evolved Shift Optimizer from MVP toward a commercial product, validating business rules, usability, and operational fit with enterprise customers.
- Led enterprise pilots and product showcase events that generated USD 40K+ in early-stage commercial opportunities and contributed to 50% YoY growth in revenue from new products.

2025 – Present | [lowsignal](#), Chile

Co-Founder & Chief Operating Officer (COO):

Co-founded and lead the operations of lowsignal, a growth company working with B2B, B2C, and Education organizations, integrating strategy, marketing, technology, automation, and digital products.

- Built the commercial, operational, and delivery model from the ground up, working with 15+ organizations across 5+ industries.
- Lead the commercial engine end-to-end, from demand generation and discovery to proposals, negotiation, closing, and account expansion.
- Managed CLP 3M+ in Meta Ads spend, connecting paid acquisition, creative performance, and reporting with broader growth strategies.
- Lead a 5+ person cross-functional team across Growth, Marketing, Design, Sales, Product, and Customer Success.
- Implemented dashboards, CRM processes, automation, reporting, and scalable workflows to improve visibility, commercial follow-up, and operational efficiency.

2025 – 2026 | [TetherEd](#), United States

Head of Partnerships:

Led partnership strategy, business development, and international expansion for an EdTech/GovTech SaaS company whose products were used by 600+ institutions across 7 markets and processed 1M+ applications.

- Built and managed 14+ strategic partnerships with governments, education institutions, and technology companies.
- Led expansion and go-to-market initiatives across Chile, Colombia, Peru, the Dominican Republic, the United States, Denmark, and Spain.
- Built partnerships with OpenAI and Anthropic to develop and deploy AI-powered education initiatives across 50+ public schools in Latin America.
- Worked with institutions and product teams to identify new use cases and turn operational challenges into scalable digital solutions.
- Represented TetherEd in investor and strategic stakeholder conversations during a period in which revenue grew 5x, while coordinating 25+ cross-functional collaborators.

2024 – 2025 | [TetherEd](#), United States

Growth Marketing Intern:

Worked across acquisition, onboarding, activation, and user engagement in 5+ Latin American markets, collaborating with Growth and Product teams through experimentation, automation, and data analysis.

- Contributed to the rollout of a national-scale results platform for a government client, serving 140,000+ users annually.
- Designed automated onboarding flows that achieved a 65%+ open rate and tripled click-through rate.
- Built dashboards to monitor acquisition, activation, conversion, user behavior, and funnel drop-off points.
- Ran A/B tests to optimize campaigns, messaging, onboarding, and acquisition processes.
- Collaborated with Product, Design, and Engineering on onboarding, segmentation, and digital experience initiatives across 5+ Latin American markets.

2024 – 2025 | [Universidad Técnica Federico Santa María](#), Chile

Assistant Coordinator:

Coordinated the academic and operational execution of Programming & Data Processing for Management, aligning instructors, teaching assistants, and processes to ensure consistent delivery at scale.

- Coordinated 12+ course sections and 400+ students, organizing teams, academic processes, and operational follow-up.
- Standardized processes and built Excel-based monitoring tools for grades, attendance, progress, and activity completion.
- Implemented tracking mechanisms to improve operational visibility and support decision-making.
- Supported coordination between instructors and teaching assistants to ensure quality, consistency, and execution across sections.

2024 – 2025 | [Universidad Técnica Federico Santa María](#), Chile

Admissions Promotion Coordinator:

Led promotion and student acquisition initiatives for the Business School, coordinating campaigns, events, and prospect follow-up to strengthen institutional positioning and the admissions experience.

- Designed and executed in-person and digital campaigns focused on prospective student acquisition and conversion.
- Managed prospect follow-up through CRM and commercial tracking tools, improving visibility across the admissions funnel.
- Engaged 1,000+ prospective students through admissions, orientation, and support initiatives.
- Coordinated events, talks, and outreach activities with academic, commercial, and communications teams.
- Implemented tracking mechanisms to improve the admissions experience and support team decision-making.
