PROFESSIONAL SUMMARY

Business professional with experience leading technology products, growth, and business development initiatives. Throughout my career, I have worked at the intersection of product, artificial intelligence, strategic partnerships, operations, and go-to-market strategy, collaborating with cross-functional teams to turn ideas into scalable solutions with measurable business impact. I combine strategic thinking with hands-on execution to build products, validate new opportunities, and drive sustainable growth.

PROFESSIONAL EXPERIENCE

2026 – Present | [GeoVictoria](#), Chile

Product Manager:

Lead the strategy and evolution of GeoVictoria's Workforce Management solutions, collaborating with cross-functional teams to develop scalable SaaS products that create value for both customers and the business.

- Led product strategy and roadmap development for Smart Scheduler, Shift Optimizer, and the Shift Change Workflow.
- Managed product roadmaps and backlogs, prioritizing initiatives based on customer needs, business objectives, and technical feasibility.
- Led Product Discovery processes, working directly with customers to identify opportunities and define high-impact solutions.
- Defined and developed AI-powered MVPs to validate new capabilities before large-scale development.
- Defined and monitored product and operational KPIs, driving continuous improvement through analytics, experimentation, and customer feedback.

2025 – Present | [lowsignal](#), Chile

Co-Founder & Chief Operating Officer (COO):

Lead the operations and strategy of lowsignal, building growth systems that integrate strategy, marketing, artificial intelligence, automation, and digital development to help companies grow.

- Designed and scaled the company's operating and commercial model from its inception.
- Developed go-to-market strategies and growth systems focused on acquisition, conversion, and retention.
- Led multidisciplinary teams across marketing, development, and customer experience projects.
- Implemented processes, metrics, and automations to optimize operations and strengthen customer relationships.

2025 – 2026 | [TetherEd](#), United States

Head of Partnerships:

Led the partnerships and regional expansion strategy of a GovTech startup operating across Latin America, the United States, and Europe.

- Built and developed a strategic partnership ecosystem with governments, educational institutions, and industry organizations.
- Led regional expansion initiatives and go-to-market strategies to accelerate growth.
- Managed relationships with key stakeholders across the EdTech ecosystem and represented the company in strategic initiatives.
- Coordinated cross-functional teams to execute high-impact projects and accelerate business growth.
- Contributed to initiatives that generated more than 5 million profile views and over 1 million school applications in 2024.

2024 – 2025 | [TetherEd, United States](#)

Growth Marketing Intern:

Collaborated with Growth and Product teams to improve user acquisition, activation, and retention across Latin America through automation and data analysis.

- Designed automated onboarding flows that achieved open rates above 65% and tripled click-through rates.
- Developed dashboards to monitor commercial funnel performance.
- Conducted A/B tests to optimize campaigns and acquisition processes.
- Collaborated with the Product team to improve user activation and overall experience.

2024 – 2025 | [Universidad Técnica Federico Santa María, Chile](#)

Assistant Coordinator:

Coordinated the Programming and Data Processing for Management course, overseeing academic operations and supporting the application of data analysis to business decision-making.

- Standardized academic processes and implemented Excel-based tracking tools.
- Integrated real-world cases and data analysis into course activities, strengthening collaboration between faculty members and teaching assistants.

2024 – 2025 | [Universidad Técnica Federico Santa María, Chile](#)

Admissions Promotion Coordinator:

Led outreach and admissions initiatives for the Business School, coordinating campaigns and activities to strengthen institutional positioning.

- Designed on-site and digital campaigns while improving applicant tracking through CRM tools.
- Organized admissions events and activities involving more than 1,000 students.

PROJECTS

2025 | **AI for Equitable Education Transformation**

Contributed to an international initiative developed in collaboration with Columbia University, Stanford University, Yale University, and OpenAI, focused on evaluating the impact of artificial intelligence in educational institutions and promoting more equitable digital transformation.

- Led the implementation team across participating educational institutions, coordinating project execution and stakeholder relationships.
- Collaborated with researchers and organizations to promote the responsible adoption of artificial intelligence in education.
- Participated in AI-driven initiatives aimed at optimizing school processes, admissions, and family communications.
- Generated evidence and insights to support scalable digital transformation strategies in education.
